## OBJECTIVE

Current full-time university student seeking to expand my knowledge and skills to grow and develop additional skills needed for my future career. Several university projects have provided practical experience, including coordinating tasks among various team members, working on my own assignments, and ensuring that every group member was on track to ensure our projects were completed in time for the deadline.

## EDUCATION

### Bachelor of Science in Software Engineering | University of Calgary

SEPTEMBER 2021 – NOW

Currently in the process of working on my degree in the field of Software Engineering at the University of Calgary, where I seek to grow and learn in these next couple years of my life to continue my passion in the field of technology and programming. Earned excellent grades (A to A+) for a class dedicated to working on projects with other students along with a class dedicated to programming in Python.

### High School Diploma | William Aberhart High School

SEPTEMBER 2018 – JUNE 2021

Continuously placed in the Honour Roll for achieving constantly high grades for all 3 years of high school, additionally earning a placement in the school's Honour Society. Additionally earned numerous awards in numerous classes such as "Le prix Gerry Dénault" for my excellent attention to detail for continuing to learn and achieving success in the French Immersion program.

## EXPERIENCE

### Registry Clerk | Crowfoot Plates Registry

JUNE 2022 – NOW

Experienced in authenticating individuals and managing their personal information, registering and renewing vehicle registration, creating profiles for new residents in the Motor Vehicle database, processing out-of-province and out-of-country vehicle renewals, renewing driver's licenses and generating driver abstracts, verifying eligibility for Alberta Health and guiding clients through the application process, handling payments and maintaining accurate records, and adhering to privacy and database integrity guidelines.

### Presenter | Calgary Public Library

JULY 2018

Helped organized an event about taking photos of the Northern Lights at the Calgary Public Library. Wrote a script containing all the pertinent information to present to the public, created a presentation in PowerPoint containing key details to ensure everyone regardless of experience could learn, and designed small take-home pamphlets with the highlights of skills and hardware necessary to successfully capture images of the Northern Lights.

### Tech Support | Freelancer

ONGOING

Have aided numerous friends, family, and acquaintances concerning issues with their mobile devices or their personal computer, no matter the language or issue, and successfully found solutions to ensure their needs were met. For example, a family member was having issues with the photo backup feature on her phone. In Spanish, I successfully helped her through a solution that ensured her memories would be effectively backed up to the cloud and not lost.

## SKILLS

- Trilingual and fluent in English, Spanish, and French
- Excellent collaborator and proven to work well within a team or by myself
- Outgoing and easy to communicate with others about their needs
- Programming experience in Python, Java, C, C++
